

GOPAL KUMAR MAHTO

Aspiring Software Developer | MCA Student

Ranchi, Jharkhand | +91 8271684370 | gopalmahto1873@gmail.com | [Gopal-Mahto](#) | [GopalMahto1873](#)

PROFESSIONAL SUMMARY

Motivated and detail-oriented Master of Computer Applications (MCA) student with a strong foundation in Python, Java, SQL, DBMS, Data Structures, Operating Systems, and Web Development. Hands-on experience in building full-stack web applications using HTML, CSS, JavaScript, Node.js, Express.js, and MongoDB. Developed a comprehensive Student Notesphere project featuring secure authentication, profile management, file uploads, and role-based access. Passionate about software development, problem-solving, and continuously learning new technologies while delivering efficient and user-friendly solutions.

TECHNICAL SKILLS

Languages: C++, Java, Python, JavaScript,

Web Technologies: HTML5, CSS3, React.js

Backend & Frameworks: Node.js, Express.js

Databases: MySQL, MongoDB, Oracle

Tools & Platforms: Git, GitHub, VS Code, MS Excel, MS Word, PowerPoint

Concepts: DBMS, DSA, OOP, CRUD, SDLC, Agile, JWT Auth, bcrypt, Role-Based Access Control

EDUCATION

Master of Computer Applications (MCA)

2024 – 2026

Dr. Shyama Prasad Mukherjee University, Ranchi, Jharkhand | Current SGPA: 9.33

Bachelor of Science – Computer Application (B.Sc.)

2017 – 2020

Ranchi Women's College, Ranchi, Jharkhand | CGPA: 73%

Higher Secondary (Science)

2017

C P C Intermediate college, Kamta, Gola, Ramgarh, Jharkhand | Percentage: 55%

TRAINING & CERTIFICATIONS

MERN Stack Development Training

Jan 2026 – Mar 2026

- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Built responsive user interfaces with React and Tailwind CSS/Bootstrap, and integrated backend APIs with database connectivity.

Python Programming Training

1 Month

- Built a web application under mentor guidance, covering UI design, backend logic, and database integration.
- Collaborated with a development team on debugging, code reviews, and documentation.

PROJECTS

Student Notesphere – Full Stack Notes and Quiz System (On Going Major Project)

Building a MERN-based academic platform with role-based authentication, dynamic notes management, admin dashboard, advanced search, and customizable quiz generation (unit-wise / whole-subject) using Node.js, Express.js, MongoDB, HTML, CSS, and JavaScript.

GitHub:

My Portfolio – Personal Portfolio Web App

Created a single-page portfolio application using React.js with reusable components and dynamic rendering. Designed a fully responsive UI, added smooth scrolling navigation, and integrated a contact section for user communication. Focused on clean code structure and performance.

Super Mart Billing System

Developed a console-based Supermart Billing System using C++ and file handling (fstream) to manage product records and generate customer bills. The system supports adding, updating, searching, and deleting product details, calculates total amount with quantity-based billing, and stores data permanently in files for future use.
